HUMANE SCORECARD

The 117th Congress, Second Session

Preview version | Fall 2022

HUMANE SOCIETY
LEGISLATIVE FUND™

hslf.org

Did your legislators make the grade?

Look inside to see how your U.S. representative and senators scored in the second session of the 117th Congress (2022) on animal issues ranging from horse slaughter and shark fin sales to puppy mills and animal testing. Then let them know that you're watching and you appreciate their support for animals, or if they haven't been standing up for animals, that you'd like to see them do more. Also, share the *Humane Scorecard* with family, friends, fellow advocates and local media outlets.

How HSLF calculated scores

Many animal protection issues never receive a recorded vote in Congress. Some are enacted by voice vote, and some are introduced but languish. To accurately measure legislators' support, we count not just recorded votes but other meaningful ways they can help issues advance, such as co-sponsoring key bills and co-signing letters seeking increased enforcement of animal welfare laws. Dozens of animal protection bills are introduced each year; to give a balanced snapshot across a broad range of concerns, we only count co-sponsorship of a few priority bills that have a critical mass of support and a reasonable chance of enactment. Scores are given as percentages of the number of items counted. Prime sponsors of legislation and those who led a letter to an agency also receive extra credit equal to one vote or co-sponsorship and a ✓ in the Leader column. Those who led on multiple legislative and/or regulatory efforts or led on a top priority issue counted in this scorecard receive double extra credit equal to two votes or co-sponsorships and a ★ in the Leader column. If a legislator already has a score of 100 before counting the extra credit for leadership, that score appears in bold with a plus sign.

HSLF acknowledges the limitations of judging legislators based on a few votes, co-sponsorships, joint letters and leadership on animal issues. In some cases, legislators must miss votes for unavoidable reasons, such as a death in the family, serious illness, birth of a child or emergency in their district. Please also consider such unrecorded matters as performance on committees, positions of House or Senate leadership, constituent service and co-sponsorship of other animal protection bills not included in the scorecard.

The Humane Society Legislative Fund is a social welfare organization incorporated under section 501(c) (4) of the Internal Revenue Code and formed in 2004 as a separate lobbying affiliate of the Humane Society of the United States. HSLF works to pass animal protection laws at the state and federal levels, to educate the public about animal protection issues and to support humane candidates for office. We're on the web at *hslf.org*. Contributions or gifts to HSLF are not tax deductible. Your donation may be used for lobbying to pass laws to protect animals, as well as for political purposes, such as supporting or opposing candidates.

The *Humane Scorecard* is published once a year by HSLF. To receive a print version of the *Humane Scorecard,* send a donation of $10 or more to the Humane Society Legislative Fund at 1255 23rd St. NW, Suite 455, Washington, D.C. 20037, donate online at *hslf.org/donate*, or contact us at 202-676-2314. ©2022 Humane Society Legislative Fund. SENATE SCORED ITEMS

Humane cosmetics

A ✓ indicates co-sponsorship of the Humane Cosmetics Act (S. 3357) to phase out testing of cosmetics on live animals and sales of animal-tested cosmetics in the U.S. These tests performed on rabbits, guinea pigs, rats and mice are intensely cruel and unreliable predictors of effects on humans. Cosmetics companies can choose from thousands of ingredients already known to be safe for people. For new ingredients, animal tests are unnecessary since many alternative methods—faster, less costly to perform and more relevant to humans—are available to ensure products are safe. Nearly 2 billion consumers live in countries that have already adopted similar restrictions, and nine states (California, Hawaii, Illinois, Louisiana, Maine, Maryland, Nevada, New Jersey and Virginia) have passed laws to prohibit the sale of animal-tested cosmetics.

SPONSORS: Sens. Cory Booker, D-N.J.; Rob Portman, R-Ohio; John Hickenlooper, D-Colo.; Susan Collins, R-Maine; Jacky Rosen, D-Nev.

Puppy mills

A ✓ indicates co-sponsorship of the Puppy Protection Act (S. 1385) to address serious gaps in welfare standards for tens of thousands of breeding dogs and puppies at large-scale breeding operations licensed by the U.S. Department of Agriculture. Although the agency upgraded dog care standards (e.g., requiring hands-on veterinary exams and 24-hour access to clean water) in a May 2020 rulemaking, in many ways the regulations still allow overcrowded and inhumane conditions at puppy mills, which often result in sick puppies being sold to consumers. This bill would codify the 2020 rule's upgrades and make other long-overdue reforms, such as prohibiting the use of stacked cages and gridded or wire cage flooring, increasing cage size, mandating protection from extreme heat and cold, and requiring that breeders attempt to find humane placement for retired breeding dogs rather than destroying them.

SPONSOR: Sen. Richard Durbin, D-Ill.

Big cats

A ✓ indicates co-sponsorship of the Big Cat Public Safety Act (S. 1210) to reduce the number of tigers, lions and other big cats living in substandard conditions and to protect public safety by banning public contact activities with these animals and prohibiting their possession by individuals and entities lacking a USDA license. The constant breeding of big cats for experiences in which people pay to pet, feed and take photographs with the cubs has created an ongoing cycle of cruelty, with cubs discarded after just a few months and sold as pets or sent to substandard zoos or menageries. More than 400 incidents involving captive big cats have occurred in 46 states and the District of Columbia since 1990, including five children and 19 adults killed and hundreds of others who lost limbs or suffered other traumatic injuries. This bill would close loopholes in the Captive Wildlife Safety Act of 2003 and wouldn't impact professionally run zoos—regardless of size, ownership or accreditation—or sanctuaries.

SPONSORS: Sens. Richard Blumenthal, D-Conn.; Susan Collins, R-Maine; Thomas Carper, D-Del.; Richard Burr, R-N.C.

Shark fin sales

A ✓ indicates indicates co-sponsorship of the Shark Fin Sales Elimination Act (S. 1106) to protect sharks from cruelty and protect ocean ecosystems. S. 1106 would strengthen

FROM TOP LEFT: UNOJ/ISTOCK.COM, CHERRYLAND HUMANE SOCIETY, MEREDITH LEE/THE HSUS

federal laws against finning, in which the fins of sharks are sliced off and the mutilated animals are tossed back into the ocean to die. The U.S. is not only an end market but also a transit hub for shark fins obtained in countries with weak policies or on the high seas where no nation's laws apply. Some shark populations worldwide have declined by as much as 90% because of the fin trade. This bill would prohibit the trade in shark fins and products containing them, expanding on the Shark Finning Prohibition Act of 2000 and the Shark Conservation Act of 2010—laws that banned shark finning and the possession at sea of shark fins not "naturally attached" to the carcass but allow fins to be sold when they reach dry land.
SPONSORS: Sens. Cory Booker, D-N.J.; Shelley Moore Capito, R-W.Va.

Horse soring

A ✓ indicates co-sponsorship of the Prevent All Soring Tactics (PAST) Act (S. 2295) to crack down on the cruel practice of "soring," in which trainers inflict severe pain on the hooves and legs of Tennessee walking horses and related breeds to force them to perform an unnaturally high-stepping gait for competitions. Congress passed the Horse Protection Act more than 50 years ago to end this abuse, but rampant soring continues, as shown in an audit by the USDA's inspector general and subsequent undercover investigations by the Humane Society of the United States. The PAST Act would end the failed system of industry self-policing, ban the use of devices integral to soring, strengthen penalties and make illegal the actual soring of a horse—all for negligible cost as determined by the Congressional Budget Office.
SPONSORS: Sens. Mike Crapo, R-Idaho; Mark Warner, D-Va.

Funding letter

A ✓ indicates that a member was one of the 43 senators who co-signed a group letter or submitted a parallel individual request in May to the Agriculture Appropriations subcommittee. The letters sought provisions in the fiscal year 2023 funding bill for enforcement of the Animal Welfare Act, Horse Protection Act, Humane Methods of Slaughter Act and federal animal fighting law, and for programs to provide shelter options for domestic violence survivors with companion animals, to address the needs of animals in disasters and to encourage veterinarians to locate in underserved areas. (Subcommittee and committee leaders don't sign letters to themselves but received credit because they were responsive to these requests.)
SPONSOR: Sen. Ron Wyden, D-Ore.

Leader

A ✓ indicates that the member earned extra credit for taking critical action to promote animals, including but not limited to: leading as a prime sponsor of pro-animal legislation (including items not scored on this chart) or a letter to an agency, or signing a letter supporting California's farm animal welfare law, Proposition 12, in a legal challenge before the Supreme Court. A ★ indicates that the member earned double extra credit for taking two or more of these actions or leading on a top priority issue counted in this scorecard.

HOUSE SCORED ITEMS

Humane cosmetics

A ✓ indicates co-sponsorship of the Humane Cosmetics Act (H.R. 6207) to phase out testing of cosmetics on live animals and sales of animal-tested cosmetics in the U.S. These tests performed on rabbits, guinea pigs, rats and mice are intensely cruel and unreliable predictors of effects on humans. Cosmetics companies can choose from thousands of ingredients already known to be safe for people.

For new ingredients, animal tests are unnecessary since many alternative methods—faster, less costly to perform and more relevant to humans—are available to ensure products are safe. Nearly 2 billion consumers live in countries that have already adopted similar restrictions, and nine states (California, Hawaii, Illinois, Louisiana, Maine, Maryland, Nevada, New Jersey and Virginia) have passed laws to prohibit the sale of animal-tested cosmetics.

SPONSORS: Reps. Don Beyer, D-Va.; Vern Buchanan, R-Fla.; Tony Cárdenas, D-Calif.; Ken Calvert, R-Calif.; Paul Tonko, D-N.Y.

Wildlife markets

A ✓ indicates co-sponsorship of the Preventing Future Pandemics Act (H.R. 151) to reduce the risk of zoonotic disease outbreaks originating from live wildlife markets and the associated trade and trafficking of wildlife. For decades, the trade in live wildlife for human consumption has been the epicenter of deadly diseases that mutate and spread from animals to humans. Along with the public health risks, wildlife markets cause acute animal suffering and exact a terrible toll on wildlife populations. This bill would end the import, export and sales of certain live wild animals for human consumption and traditional medicine in the U.S., and it would bolster international efforts to halt the global wildlife trade and help communities transition to more sustainable food sources.

SPONSORS: Reps. Mike Quigley, D-Ill.; Fred Upton, R-Mich.

Puppy mills

A ✓ indicates co-sponsorship of the Puppy Protection Act (H.R. 2840) to address serious gaps in welfare standards for tens of thousands of breeding dogs and puppies at large-scale breeding operations licensed by the U.S. Department of Agriculture. Although the agency upgraded dog care standards (e.g., requiring hands-on veterinary exams and 24-hour access to clean water) in a May 2020 rulemaking, in many ways the regulations still allow overcrowded, inhumane conditions at puppy mills, which often result in sick puppies being sold to consumers. This bill would codify the 2020 rule's upgrades and make other overdue reforms, such as prohibiting the use of stacked cages and gridded or wire cage flooring, increasing cage size, mandating protection from extreme heat and cold, and requiring that breeders attempt to find humane placement for retired breeding dogs rather than destroying them.

SPONSORS: Reps. Brian Fitzpatrick, R-Pa.; Charlie Crist (resigned Aug. 31, 2022), D-Fla.; Guy Reschenthaler, R-Pa.; Jim McGovern, D-Mass.

Horse slaughter

A ✓ indicates co-sponsorship of the Save America's Forgotten Equines (SAFE) Act (H.R. 3355), which would prohibit the reopening of horse slaughter plants in the U.S. and the export of American horses to slaughter for human consumption. Horse slaughter is cruel, and the U.S. public overwhelmingly opposes it. Horses are often seriously injured or killed during long-distance transit, and they rarely experience quick, painless deaths at the slaughter plant. This predatory industry doesn't "euthanize" old, sick horses; young and healthy horses are purchased, often by buyers misrepresenting their intentions, and killed for the overseas horsemeat market. American horses aren't raised for food and are routinely given hundreds of drugs over their lifetimes that can be toxic to humans if ingested.

SPONSORS: Reps. Jan Schakowsky, D-Ill.; Vern Buchanan, R-Fla.

FROM TOP RIGHT: GA DEPT OF AGRICULTURE, TREVOR MOGG/ALAMY STOCK PHOTO

HOUSE SCORED ITEMS

Shark fin sales

A ✓ indicates co-sponsorship of the Shark Fin Sales Elimination Act (H.R. 2811) to protect sharks from cruelty and protect ocean ecosystems. H.R. 2811 would strengthen federal laws against finning, in which the fins of sharks are sliced off and the mutilated animals are tossed back into the ocean to die. The U.S. is not only an end market but also a transit hub for shark fins obtained in countries with weak policies or on the high seas where no nation's laws apply. Some shark populations worldwide have declined by as much as 90% in recent decades because of the fin trade. This bill would prohibit the trade in shark fins and products containing them, expanding on the Shark Finning Prohibition Act of 2000 and the Shark Conservation Act of 2010—laws that banned shark finning and the possession at sea of shark fins not "naturally attached" to the carcass but allow fins to be sold when they reach dry land.

SPONSORS: Reps. Gregorio Kilili Camacho Sablan, D-N. Marianas; Michael McCaul, R-Texas

Wildlife trade and trafficking—America COMPETES Act

A ✓ indicates a vote for a set of amendments (en bloc #2) to the America COMPETES Act (H.R. 4521). We note that representatives had various reasons for voting as they did on this set, but we urged support because it contained two important amendments to curb the trade and trafficking of wildlife. The first amendment, mirroring portions of the Preventing Future Pandemics Act (see p. 7), would help prevent future pandemics by enhancing the U.S. Fish and Wildlife Service's work with international partners to shut down live wildlife markets and reduce the global consumption of terrestrial wildlife. The second amendment would reauthorize the END Wildlife Trafficking Act of 2016, strengthen FWS efforts to halt wildlife trafficking and poaching, expand the use of technology to catch perpetrators, and target traffickers' use of digital currency and payment platforms. Wildlife trafficking is a multibillion-dollar illicit industry run by transnational criminal syndicates. It is decimating wildlife populations; undermining species recovery efforts; and threatening national security by increasing global instability, heightening the risk of zoonotic diseases and financing terrorist activities.

SPONSORS: PFPA: Reps. Mike Quigley, D-Ill.; Grace Meng, D-N.Y.; Fred Upton, R-Mich.; Jeff Fortenberry, R-Neb.; END Wildlife Trafficking: Reps. Fortenberry; Meng; Buddy Carter, R-Ga.; Quigley

Trophy hunting and climate change

A ✓ indicates a vote against a set of amendments (en bloc #5) to the initial package of fiscal year 2023 appropriations bills, known as "minibus 1" (H.R. 8294). We note that representatives had various reasons for voting as they did on this set, but we urged opposition because it contained an amendment to strike Section 439, a key animal welfare provision championed by Rep. Ted Lieu, D-Calif. Section 439 would halt imports of sport-hunted lion and elephant trophies taken in Tanzania, Zambia or Zimbabwe, where the species are in severe decline. The process for granting import permits, which is overseen by the FWS, lacks transparency and due consideration of the conservation impacts on species in other countries. In appropriations bills enacted in 2019, 2020 and 2021, Congress expressed concern over continued population declines of African elephants and lions and called out the agency's failure to analyze the impact of the permit process on conservation. We also urged opposition to en bloc #5 because it contained numerous amendments to restrict efforts to address climate change, which poses an enormous danger to wildlife, pets and other animals facing increasingly severe and frequent extreme weather and habitat degradation.

SPONSOR (ANTI-ANIMAL AMENDMENT): Trophy hunting: Rep. Jeff Duncan, R-S.C.

Manatee protection and equine-assisted therapy

A ✓ indicates a vote for a set of amendments (en bloc #7) to the initial package of FY 2023 appropriations bills, known as "minibus 1" (H.R. 8294). We note that representatives had various reasons for voting as they did on this set, but we urged support because it contained two pro-animal amendments. First, it would transfer $1 million to the FWS to help protect manatees. Last year, over 1,100 manatees died in Florida, making 2021 the deadliest year on record. This amendment would provide funding to monitor the manatee population and to rehabilitate manatees who are victims of water quality degradation, watercraft collisions, habitat loss and other threats. The second amendment would explicitly direct the U.S. Department of Veterans Affairs to use $5 million for equine-assisted therapy

GUENTERGUNI/ISTOCK.COM

within the department's adaptive sports program. Therapy animals can be very beneficial for veterans with post-traumatic stress disorder and other conditions by helping to reduce anxiety, increase confidence, improve interpersonal skills and regain physical strength.
SPONSORS: Manatees: Rep. Vern Buchanan, R-Fla.; Equine therapy: Rep. Andy Barr, R-Ky.

Big cats

A ✓ indicates a vote in favor of the Big Cat Public Safety Act (H.R. 263) to reduce the number of tigers, lions and other big cats living in substandard conditions and to protect public safety by banning public contact activities with these animals and prohibiting their possession by individuals and entities lacking a USDA license. The breeding of big cats for experiences in which people pay to pet, feed and take photographs with the cubs has created an ongoing cycle of cruelty, with cubs discarded after just a few months and sold as pets or sent to substandard zoos or menageries. More than 400 incidents involving captive big cats have occurred in 46 states and the District of Columbia since 1990, including five children and 19 adults killed and hundreds of others who suffered traumatic injuries. This bill would close loopholes in the Captive Wildlife Safety Act of 2003 and wouldn't impact professionally run zoos or sanctuaries. (Co-sponsorship of this bill is noted with a + symbol; this only affects numerical scores for delegates, who couldn't vote, and representatives who missed the vote. Co-sponsors who voted against the bill didn't receive credit.)
SPONSORS: Reps. Mike Quigley, D-Ill.; Brian Fitzpatrick, R-Pa.

Horse soring

A ✓ indicates a vote in favor of the Prevent All Soring Tactics (PAST) Act (H.R. 5441) to crack down on "soring," in which trainers inflict severe pain on the hooves and legs of Tennessee walking horses and related breeds to force them to perform an unnaturally high-stepping gait for competitions. Congress passed the Horse Protection Act more than 50 years ago to end this abuse, but rampant soring continues, as shown in an audit by the USDA's inspector general and undercover investigations by the Humane Society of the United States. The PAST Act would end the failed system of industry self-policing, ban the use of devices integral to soring, strengthen penalties and make illegal the actual soring of a horse—all for negligible cost as determined by the Congressional Budget Office. (Co-sponsorship of this bill is noted with a + symbol; this only affects numerical scores for delegates, who couldn't vote, and representatives who missed the vote. Cosponsors who voted against the bill didn't receive credit.)
SPONSORS: Reps. Steve Cohen, D-Tenn.; Brian Fitzpatrick, R-Pa.; Jan Schakowsky, D-Ill.; Vern Buchanan, R-Fla.

Funding letter

A ✓ indicates that a member was one of the 203 representatives who co-signed a group letter or submitted an individual request in April to the Agriculture Appropriations subcommittee. These letters sought provisions in the FY 2023 funding bill for enforcement of the Animal Welfare Act, Horse Protection Act, Humane Methods of Slaughter Act and federal animal fighting law, and for programs to provide shelter for domestic violence survivors with pets, to address the needs of animals in disasters and to encourage veterinarians to locate in underserved areas. (Subcommittee and committee leaders don't sign letters to themselves but received credit because they were responsive to these requests.)
SPONSORS: Reps. Earl Blumenauer, D-Ore.; Chris Smith, R-N.J.

Congressional Animal Protection Caucus

A ✓ indicates the representative is a member of this caucus, led by Reps. Earl Blumenauer, D-Ore., and Vern Buchanan, R-Fla., which highlights issues affecting animals and opportunities for legislators to help advance sensible reforms. Caucus membership doesn't affect numerical scores.

Leader

A ✓ indicates the member earned extra credit for taking critical action to promote animals, including but not limited to: leading as a prime sponsor of pro-animal legislation (including items not scored here) or a letter to an agency, or signing a letter voicing support for California's farm animal welfare law, Proposition 12, in a legal challenge before the Supreme Court. A ★ indicates the member earned double extra credit for taking two or more of these actions or leading on a top priority issue counted in this scorecard.

Key to House Chart

SP Prime sponsor (pro-animal legislation)

✓ Took pro-animal position through co-sponsoring a bill, voting, signing a letter or leading on pro-animal issue

✓+ Co-sponsored and voted for a bill

★ Led on multiple legislative and/or regulatory efforts or led on a top priority measure

X Took anti-animal position on a vote

NV Did not vote due to absence or abstention

NV+ Did not vote due to absence or abstention but received credit for co-sponsoring bill

100+ Pro-animal position on 11 scored items plus extra credit for leading on pro-animal issue(s)

Filled seat during term

Resigned during term

Passed away during term

▲ Member of the Congressional Animal Protection Caucus (does not affect numerical score)

• Delegates from U.S. territories and the District of Columbia cannot vote on bills or amendments on the House floor unless they are taken in the "Committee of the Whole"

•• The top leaders of each party typically don't co-sponsor bills and the Speaker of the House doesn't vote, so they have no numerical scores

Note: In some cases, legislators must miss votes for unavoidable personal reasons, such as a death in the family, serious illness, birth of a child or emergency in their district.
