

HUMANE SCORECARD

**Report on the
116th Congress
Second Session**

hslf.org

HOW HSLF CALCULATED SCORES

Many animal protection issues never receive a recorded vote in Congress. Some are enacted by voice vote, and some languish. To accurately measure legislators' support, we count not just recorded votes but other meaningful ways they can help issues advance, such as co-sponsoring key bills and co-signing letters seeking increased enforcement of animal welfare laws. To give a balanced snapshot across a broad range of animal protection concerns, we only count co-sponsorship of a few priority bills that have a critical mass of support and a reasonable chance of enactment. Scores are given as percentages of the number of items counted. Prime sponsors of legislation and those who led on a letter to an agency also receive extra credit equal to one vote or co-sponsorship and a ✓ in the Leader column. Those who led on multiple legislative or regulatory efforts or led on a top priority issue counted in this scorecard receive double extra credit equal to two votes or co-sponsorships and a ★ in the Leader column. If a legislator already has a score of 100 before counting the extra credit for Leaders, that score appears in bold with a plus sign.

HSLF acknowledges the limitations of judging legislators based on a few votes, co-sponsorships, joint letters and leadership on animal issues. In some cases, legislators must miss votes for unavoidable reasons, such as a death in the family, serious illness, birth of a child or emergency in their district. Please also consider such unrecorded matters as performance on committees, positions of House or Senate leadership, constituent service and co-sponsorship of other animal protection bills not included in this scorecard.

The Humane Society Legislative Fund is a social welfare organization incorporated under section 501(c)(4) of the Internal Revenue Code and formed in 2004 as a separate lobbying affiliate of the Humane Society of the United States. HSLF works to pass animal protection laws at the state and federal levels, to educate the public about animal protection issues and to support humane candidates for office. On the web at hslf.org. Contributions or gifts to HSLF are not tax deductible. Your donation may be used for lobbying to pass laws to protect animals, as well as for political purposes, such as supporting or opposing candidates. The *Humane Scorecard* is published once a year by HSLF (to receive a printed version, donate \$10 or more to HSLF).

To make a donation, go online to hslf.org, send a check to the Humane Society Legislative Fund at 1255 23rd St., NW, Suite 455, Washington, D.C. 20037, or contact us at 202-676-2314 or humaneactivist@hslf.org. ©2021 Humane Society Legislative Fund. All rights reserved.

PRESIDENT'S LETTER

IN A YEAR marked by a global pandemic and high partisan tensions on Capitol Hill, HSLF worked harder than ever to keep our issues on legislators' radars. With support from our congressional allies, we forged ahead and won crucial gains for animals during the second session of the 116th Congress.

Many of our biggest victories, including the enactment of key horse racing legislation, came in the "omnibus" appropriations bill that funds federal agencies for fiscal year 2021. Here are highlights of that legislation, which was signed into law as P.L. 116-260 in December 2020:

EQUINES

- Includes the **Horseracing Integrity and Safety Act** to address the widespread doping of racehorses and unsafe track conditions that have been key contributing factors in frequent equine fatalities on American racetracks.
- Renews the annual provision to "defund" U.S. Department of Agriculture inspections at U.S. **horse slaughter** plants, effectively preventing those plants from reopening.
- Provides an increase of more than \$14 million for the Bureau of Land Management to implement nonlethal management of **wild horses and burros**, featuring PZP, a humane, reversible fertility control vaccine. Renews language that prevents horses under the care of the BLM and U.S. Forest Service from being sent to slaughter for human consumption.
- Doubles funding to \$2.09 million for USDA enforcement of the Horse Protection Act (HPA) to better curb cruel "**soring**" of Tennessee walking horses and related breeds. House report language (deemed adopted in the final package) calls for the agency's inspector general to audit the HPA enforcement program and makes it clear that the authority of USDA inspectors supersedes that of industry inspectors. It also urges the agency to reinstate the HPA rule—which was finalized but shelved in January 2017—to end the failed system of industry self-policing and use of devices integral to soring.
- Provides \$1.5 million in the National Veterans Sports Program for **equine therapy** to help address PTSD and other mental health conditions.

COMPANION ANIMALS

- Provides \$2.5 million—up from \$2 million in FY 2020—for the Protecting Animals with Shelter (formerly known as the PAWS Act) grant program to expand **shelter options for domestic violence survivors with pets**.
- Encourages the USDA to vigorously enforce license requirements for **dog dealers selling over the internet**.

- Urges the USDA to move forward with an international agreement to ban the trade of **dog and cat meat** worldwide.

ANIMAL WELFARE ENFORCEMENT

- Directs the USDA to consider lifting the stay on a rule requiring puppy mills, roadside zoos and other facilities regulated by the Animal Welfare Act (AWA) to have **emergency response plans** for the animals in their care. The rule was issued in 2012 but indefinitely delayed in 2013.
- Through House report language, directs the USDA to ensure that its **online databases of AWA and HPA records** are at least as searchable—in function and content—as they were before these records were purged from the agency’s website in 2017. The Senate report also reminds the USDA that it must continue to comply with the transparency directives Congress enacted in 2019.
- Through House report language, directs USDA inspectors to document **each observed AWA noncompliance** on an inspection report.
- Provides an additional \$500,000 for the USDA inspector general to better enforce the federal law against **animal fighting** and encourages an audit of the agency’s AWA enforcement.

RESEARCH AND TESTING

- Upholds mandate that the USDA inspect its **Agricultural Research Service laboratories** for compliance with the AWA.
- Renews the bar on the use of USDA funds to license “**Class B random source**” dealers, who are notorious for obtaining cats and dogs through fraudulent means such as pet theft to sell them for research.
- Directs the Department of Veterans Affairs to submit a plan to Congress by the end of 2021 for **reducing or eliminating the use of dogs, cats and nonhuman primates in its research** within five years.
- Encourages the use of **nonanimal testing methods** by the Food and Drug Administration for new drugs.

FARM ANIMALS

- Directs the USDA to review the impacts of waivers it has granted to allow increased **slaughter plant line speeds**—the speeds at which animals are killed—and report back to Congress within 90 days. Also requires the agency to consult with the Occupational Safety and Health Administration on any future line speed increases.
- Promotes USDA-funded research into innovations in **plant-based protein**.
- Maintains current staffing levels for oversight of the **Humane Methods of Slaughter Act** to prevent animal suffering at USDA-inspected slaughter plants and calls for an inspector general audit to improve compliance.
- Increases monitoring of **antibiotic overuse** in animal agriculture (which props up inhumane, overcrowded and unsanitary conditions and spurs antibiotic resistance that hurts sick people and animals).

WILDLIFE

- Increases funding for enforcement of federal wildlife protection laws, **Endangered Species Act** implementation and biodiversity conservation programs. Continues investment in international efforts against **wildlife poaching and trafficking** and in a domestic program that facilitates wolf coexistence with ranchers.
- Includes funds for a study on the connection between **live wildlife markets and new zoonotic diseases** (transmitted from animals to people). Increases funding for global health security programs to prevent, treat and control such diseases and to sustainably and ethically phase out the demand for wildlife as a food source.
- Requires the U.S. Fish and Wildlife Service to provide a briefing to Congress on its current policy for allowing **imports of sport-hunted trophies** of species such as lions and elephants and to explain how such imports benefit the survival of imperiled species whose populations, Congress noted, continue to decline. The briefing was mandated in the FY 2020 appropriations package, but the agency failed to complete it.
- Increases funding to protect critically endangered North Atlantic **right whales** and to strengthen the **Marine Mammal Commission** (a key independent oversight agency), and sustains a program that coordinates nationwide emergency response for stranded, sick, injured, distressed or dead marine mammals.
- Permanently authorizes sales by the U.S. Postal Service of remaining **Save Vanishing Species stamps** that fund conservation.

THE ROAD AHEAD

In 2021, we will renew the fight on several bills that passed the House during the 116th Congress but didn’t get considered by the Senate. They include the **Prevent All Soring Tactics (PAST) Act** (p. 3), **Big Cat Public Safety Act** (p. 2), **Shark Fin Sales Elimination Act** (p. 2), **PAWS for Veterans Therapy Act** (H.R. 4305), and provisions in the **Moving Forward Act** (H.R. 2) that would make highways safer for wildlife to cross and improve the safety of horse transport.

Also poised for renewed action, the **Driftnet Modernization and Bycatch Reduction Act** (S. 906) would phase out large-mesh driftnets that kill dolphins, sharks and sea turtles. S. 906 passed the Senate and House but was unexpectedly vetoed by President Trump on December 30, 2020.

On these and other measures, we look forward to new opportunities in the 117th Congress to press the case for animals. Your support and engagement are the keys to our success. Together, we can build on our victories and make even greater progress in 2021.

Sincerely,

Sara Amundson
 President
 Humane Society Legislative Fund

SENATE SCORED ITEMS

Humane cosmetics

A ✓ indicates co-sponsorship of the Humane Cosmetics Act (S. 2886) to phase out testing of cosmetics on live animals and sale of animal-tested cosmetics in the U.S. These tests performed on rabbits, guinea pigs, rats and mice are intensely cruel and unreliable predictors of effects on humans. Cosmetic companies can choose from thousands of ingredients already known to be safe for people. For new ingredients, animal tests are unnecessary since many alternative methods—faster and less costly to perform—are available to ensure products are safe for human use. More than 1.8 billion consumers live in countries that have already adopted similar restrictions, and three

states (California, Illinois and Nevada) now prohibit the sale of animal-tested cosmetics.

SPONSORS: Sens. Martha McSally, R-Ariz.; Cory Booker, D-N.J.

STATUS: 23 co-sponsors; no action by Committee on Health, Education, Labor, and Pensions.

Big cats

A ✓ indicates co-sponsorship of the Big Cat Public Safety Act (S. 2561) to reduce the number of tigers, lions and other big cats living in substandard conditions and protect public safety by banning public contact activities with these animals and prohibiting their possession by individuals and entities lacking a U.S. Department of Agriculture license. The constant breeding of big cats for experiences in which people pay to pet, feed and take photographs with the cubs has created an ongoing cycle of cruelty, with cubs discarded after just a few months and funneled into the pet trade or sent to substandard zoos or menageries. More than 400 incidents involving captive big cats have occurred in 46 states and the District of Columbia since 1990, including five children and 19 adults killed and hundreds of others who lost limbs or suffered other traumatic injuries. This bill would close

loopholes in the Captive Wildlife Safety Act of 2003 and would not impact professionally run zoos and sanctuaries or their conservation programs.

SPONSOR: Sen. Richard Blumenthal, D-Conn.

STATUS: 42 co-sponsors; no action by Committee on Environment and Public Works; companion bill, H.R. 1380, passed House by 272-114 vote in December 2020.

Horse racing

A ✓ indicates co-sponsorship of the Horseracing Integrity Act (S. 1820) to address widespread doping—a key contributing factor in frequent horse fatalities on American racetracks—by banning race-day medication, increasing out-of-competition testing and establishing uniform national rules governing use of drugs in racehorses. This bill would end the hodgepodge of different rules in 38 U.S. racing jurisdictions by granting independent control over rule-making, testing standards and enforcement processes to a new nonprofit headed by the U.S. Anti-Doping Agency. (Senators also received credit for sponsoring or co-sponsoring a related bill, S. 4547, introduced in September, which addresses racetrack safety as well as doping of racehorses.)

SPONSORS: S. 1820: Sens. Kirsten Gillibrand, D-N.Y.; Martha McSally, R-Ariz.; S. 4547: Sens. Mitch McConnell, R-Ky.; Gillibrand, D-N.Y.; McSally, R-Ariz.; Dianne Feinstein, D-Calif.

STATUS: S. 1820: 27 co-sponsors; S. 4547: 8 co-sponsors and enacted as part of the fiscal year 2021 omnibus appropriations bill (P.L. 116-260) in December 2020.

Shark fin sales

A ✓ indicates co-sponsorship of the Shark Fin Sales Elimination Act (S. 877) to protect sharks from cruelty and preserve our oceans' fragile ecosystems. S. 877 would strengthen federal laws against finning, in which the fins of sharks are sliced off and the mutilated animals are tossed back into the ocean to die. The U.S. is both an end market and a transit point for shark fins obtained in countries with weak regulations or on the high seas where no nation's laws apply. Some shark

populations worldwide have declined by as much as 90% in recent decades because of the fin trade. This bill would prohibit the trade in shark fins, expanding on the Shark Finning Prohibition Act of 2000 and the Shark Conservation Act of 2010 (laws that banned shark finning and the transportation on U.S.-flagged vessels of fins not “naturally attached” to the carcass).

SPONSORS: Sens. Cory Booker, D-N.J.; Shelley Moore Capito, R-W.Va.

STATUS: 47 co-sponsors; approved by Committee on Commerce, Science, and Transportation in December 2019; companion bill, H.R. 737, passed House by 310-107 vote in November 2019.

Horse soring

A ✓ indicates co-sponsorship of the Prevent All Soring Tactics (PAST) Act (S. 1007) to crack down on the cruel practice of “soring,” in which trainers deliberately inflict severe pain on the hooves and legs of Tennessee walking horses and related breeds to force them to perform an unnaturally high-stepping gait for competitions. Congress passed the Horse Protection Act (HPA) 50 years ago to end this abuse, but rampant soring continues, as shown in a 2010 audit by the USDA’s inspector general and by undercover investigations by the Humane Society of the United States in 2012 and 2015. The PAST Act would end the failed system of industry self-policing, ban the use of devices integral to soring, strengthen penalties and make illegal the actual soring of a horse—all for negligible cost as determined by the

Congressional Budget Office.

SPONSORS: Sens. Mike Crapo, R-Idaho; Mark Warner, D-Va.

STATUS: 52 co-sponsors; no action by Committee on Commerce, Science, and Transportation (which approved identical legislation in 2014); companion bill, H.R. 693, passed House by 333-96 vote in July 2019.

Puppy mills

A ✓ indicates co-sponsorship of the Puppy Protection Act (S. 4757) to address serious gaps in welfare standards for tens of thousands of breeding dogs and puppies at large-scale breeding operations licensed by the USDA. Although the agency recently finalized an important rule that includes some upgrades to dog care standards (e.g., requiring hands-on veterinary exams and 24-hour access to clean water), in many ways the regulations still allow overcrowded and inhumane conditions at puppy mills, which often result in sick puppies being sold to consumers. This bill would codify the recent rule’s upgrades and make other long-overdue reforms, such as prohibiting the use of stacked cages and gridded or wire cage flooring, increasing cage size, mandating protection from extreme heat and cold, and requiring that breeders attempt to find humane placement for retired breeding dogs rather than destroying them.

SPONSOR: Sen. Richard Durbin, D-Ill.

STATUS: 31 co-sponsors; no action by Committee on Agriculture, Nutrition, and Forestry.

Funding letter

A ✓ indicates that a member was one of the 41 senators who co-signed a group letter or submitted a parallel individual request in April to the agriculture appropriations subcommittee. These letters sought provisions in the FY 2021 bill funding the USDA regarding enforcement of the Animal Welfare Act (AWA), HPA, Humane Methods of Slaughter Act and federal animal fighting law, and for programs to provide shelter options for domestic violence survivors with companion animals and to encourage veterinarians to locate in underserved areas. The letters also urged the subcommittee to direct the USDA to require that AWA-regulated facilities such as puppy mills and roadside zoos have disaster plans for the animals in their care. (Subcommittee and committee leaders don’t sign letters to themselves but received credit because they were responsive to these requests.)

SPONSORS: Sens. Ron Wyden, D-Ore.; John Kennedy, R-La.

STATUS: The FY 2021 omnibus appropriations bill enacted in December doubles HPA funding and urges the USDA to fix serious deficiencies in its enforcement of the law by reinstating a final rule that was shelved in 2017. It also provides an extra \$500,000 to expand shelter options for domestic violence survivors with pets and a \$500,000 increase for enforcement of the federal animal fighting law. It directs the USDA to consider lifting the stay on a 2012 final rule that requires disaster plans for AWA-regulated facilities. It also directs the agency to document every AWA noncompliance on inspection reports, to restore the online searchability of AWA and HPA records, and to ensure AWA inspections at USDA laboratories.

Leader

A ✓ indicates that the member earned extra credit for leading as a prime sponsor of pro-animal legislation (including items not scored on this chart) or a letter to an agency. A ★ indicates that the member earned double extra credit for leading on multiple legislative or regulatory efforts or leading on a top priority issue.

Humane cosmetics

A ✓ indicates co-sponsorship of the Humane Cosmetics Act (H.R. 5141) to phase out testing of cosmetics on live animals and sale of animal-tested cosmetics in the U.S. These tests performed on rabbits, guinea pigs, rats and mice are intensely cruel and unreliable predictors of effects on humans. Cosmetic companies can choose from thousands of ingredients already known to be safe for people. For new ingredients, animal tests are unnecessary since many alternative methods—faster and less costly to perform—are available to ensure products are safe for humans. More than 1.8 billion consumers live in countries that have already adopted similar restrictions, and three states (California, Illinois and Nevada) now prohibit the sale of animal-tested cosmetics.

SPONSORS: Reps. Don Beyer, D-Va.; Vern Buchanan, R-Fla.; Tony Cárdenas, D-Calif.; Paul Tonko, D-N.Y.; Ken Calvert, R-Calif.

STATUS: 183 co-sponsors; no action by Committee on Energy and Commerce.

Puppy mills

A ✓ indicates co-sponsorship of the Puppy Protection Act (H.R. 2442) to address serious gaps in welfare standards for tens of thousands of breeding dogs and puppies

at large-scale breeding operations licensed by the U.S. Department of Agriculture. Although the agency recently finalized an important rule that includes some upgrades to dog care standards (e.g., requiring hands-on veterinary exams and 24-hour access to clean water), in many ways the regulations still allow overcrowded and inhumane conditions at puppy mills, which often result in sick puppies being sold to consumers. This bill would codify the recent rule's upgrades and make other long-overdue reforms, such as prohibiting the use of stacked cages and gridded or wire cage flooring, increasing cage size, mandating protection from extreme heat and cold, and requiring that breeders attempt to find humane placement for retired breeding dogs rather than destroying them.

SPONSORS: Reps. Brian Fitzpatrick, R-Pa.; Charlie Crist, D-Fla.; Guy Reschenthaler, R-Pa.; Jim McGovern, D-Mass.

STATUS: 198 co-sponsors; no action by Committee on Agriculture.

Disaster planning

A ✓ indicates co-sponsorship of the Providing Responsible Emergency Plans for Animals at Risk of Emerging Disasters (PREPARED) Act (H.R. 1042) to require facilities regulated under the Animal Welfare

Act (AWA) to submit annual contingency plans for the animals in their care during emergencies such as natural disasters, pandemics, power outages and animal escapes. Given the increasing frequency and intensity of weather-related emergencies, as well as the COVID-19 crisis and potential for serious staffing shortages, it is crucial—for the animals' sake and for the safety of first responders and the public—that facilities plan in advance how to handle tasks such as evacuation, shelter-in-place, and provision of backup food and water, sanitation, ventilation and veterinary care. Disaster plans are already required under the accreditation process for many research facilities, zoos and aquariums; the PREPARED Act would ensure that puppy mills, roadside zoos and other outliers also have plans in place.

SPONSORS: Reps. Dina Titus, D-Nev.; Peter King, R-N.Y.

STATUS: 223 co-sponsors; no action by Committee on Agriculture, but related provision enacted as part of fiscal year 2021 omnibus appropriations bill (P.L. 116-260) in December 2020.

Horse slaughter

A ✓ indicates co-sponsorship of the Safeguard American Food Exports (SAFE) Act (H.R. 961) to protect horses and consumers by prohibiting the transport and export of U.S. horses to slaughter for human consumption. American horses aren't raised for food and are routinely given drugs that can be toxic to people if ingested. Horse slaughter is cruel, and the U.S. public overwhelmingly opposes it. Horses are often seriously injured or killed during long-distance transit. At the slaughter plant, horses rarely experience quick, painless deaths. This predatory industry doesn't

HOUSE SCORED ITEMS

“euthanize” old, sick horses; young and healthy horses are purchased, often by buyers misrepresenting their intentions, and killed for the overseas horsemeat market.

SPONSORS: Reps. Jan Schakowsky, D-Ill.; Vern Buchanan, R-Fla.

STATUS: 238 co-sponsors; hearing by Committee on Energy and Commerce in January 2020; no action by Committee on Agriculture; related “defund” provision barring USDA inspections of horse slaughter plants enacted as part of FY 2021 omnibus.

Horse racing

A ✓ indicates co-sponsorship of the Horseracing Integrity and Safety Act (H.R. 1754) to address widespread doping—a key contributing factor to frequent horse fatalities on American racetracks—by banning race-day medication, increasing out-of-competition testing and establishing uniform national rules governing use of drugs in racehorses. This bill would end the hodgepodge of different rules in 38 U.S. racing jurisdictions by granting independent control over rule-making, testing standards and enforcement processes to a new nonprofit headed by the U.S. Anti-Doping Agency. (Representatives also received credit for voting in favor of an amended version of the bill—addressing racetrack safety as well as doping—during a recorded committee vote in September.)

SPONSORS: Reps. Paul Tonko, D-N.Y.; Andy Barr, R-Ky.

STATUS: 262 co-sponsors; hearing by Committee on Energy and Commerce in January 2020; passed by voice vote in

September 2020 and enacted as part of FY 2021 omnibus.

Wildlife markets

A ✓ indicates co-sponsorship of the Preventing Future Pandemics Act (H.R. 8433) to address the human health risks posed by the wildlife trade. COVID-19, which scientists have traced to a market that sold live wildlife for human consumption, serves as a stark example of how animals kept in crowded, stressful conditions can spread viruses to other species, including humans. This bill would prohibit the import, export and sales of certain live wildlife for the primary purpose of human consumption in the U.S. It would also help prevent future global pandemics by setting a strong precedent for other countries to follow; helping communities that rely on wildlife consumption shift to alternative protein sources; establishing international partnerships to end commercial terrestrial wildlife markets and associated wildlife trafficking; and implementing new economic, diplomatic or other penalties for countries that continue to facilitate wildlife markets or wildlife trafficking.

SPONSORS: Reps. Mike Quigley, D-Ill.; Fred Upton, R-Mich.

STATUS: 152 co-sponsors; no action by Committees on Foreign Affairs, Energy and Commerce, Financial Services, Judiciary, Natural Resources, or Ways and Means; related provisions enacted in FY 2021 omnibus.

Minibus #1

A ✓ indicates a vote in favor of final passage of H.R. 7608, the initial package of FY 2021 appropriations bills considered by the House, known as “minibus 1.” We note that representatives had many reasons for voting as they did on this large multi-issue package, but we urged support for H.R. 7608 because it contained many vital animal protection measures we worked hard to secure. These included significant funding increases to curb horse soring, expand shelter options for domestic violence survivors with pets, and invest in new wildlife crossings (structural passages beneath or above roadways to reconnect habitat and reduce human and wildlife road fatalities). The bill also contained strong provisions to require that AWA-

regulated facilities such as puppy mills and roadside zoos have disaster plans; prevent horse slaughter plants from operating in the U.S.; bar the import of endangered elephant and lion trophies; combat wildlife trafficking; protect wild horses and burros; maintain Endangered Species Act protections for gray wolves and other imperiled species; end cruel hunting practices on public lands in Alaska; sustain funding for animal testing alternatives; protect farm animals at USDA research facilities; reduce slaughterhouse kill speeds for the sake of animals, workers and food safety; and prevent future pandemics by curbing the live wildlife trade.

STATUS: Passed by 224-189 vote in July 2020; many of these or related provisions were enacted in FY 2021 omnibus.

Big cats

A ✓ indicates a vote in favor of the Big Cat Public Safety Act (H.R. 1380) to reduce the number of tigers, lions and other big cats living in substandard conditions and protect public safety by banning public contact activities with these animals and prohibiting their possession by individuals and entities lacking a USDA license. The constant breeding of big cats for experiences in which people pay to pet, feed and take photographs with the cubs has created an ongoing cycle of cruelty, with cubs discarded after just a few months and sold as pets or sent to substandard zoos or menageries. More than 400 incidents

involving captive big cats have occurred in 46 states and the District of Columbia since 1990, including five children and 19 adults killed and hundreds of others who lost limbs or suffered other traumatic injuries. This bill would close loopholes in the Captive Wildlife Safety Act of 2003 and would not impact professionally run zoos and sanctuaries or their conservation programs.

SPONSORS: Reps. Mike Quigley, D-Ill.; Brian Fitzpatrick, R-Pa.

STATUS: Passed by 272-114 vote in December 2020.

Funding letter

A ✓ indicates that a member was one of the 207 representatives who co-signed a group letter or submitted a parallel individual request in March to the agriculture appropriations subcommittee. These letters sought provisions in the FY 2021 funding bill for enforcement of the AWA, Horse Protection Act, Humane Methods of Slaughter Act and federal animal fighting law, and for programs to provide shelter options for domestic violence survivors with companion animals and to encourage veterinarians to locate in underserved areas. The letters also urged the subcommittee to direct the USDA to require that AWA-regulated facilities such as puppy mills and roadside zoos have disaster plans for the animals in their care. (Subcommittee and committee leaders don't sign letters to themselves but received credit because they

were responsive to these requests.)

SPONSORS: Reps. Earl Blumenauer, D-Ore.; Chris Smith, R-N.J.

STATUS: The FY 2021 omnibus enacted in December doubles HPA funding and urges the USDA to fix serious deficiencies in its enforcement of the law by reinstating a final rule that was shelved in 2017. It also provides an extra \$500,000 to expand shelter options for domestic violence survivors with pets and a \$500,000 increase for enforcement of the animal fighting law. It directs the USDA to consider lifting the stay on a 2012 final rule which requires disaster plans for AWA-regulated facilities. It also directs the agency to document every AWA noncompliance on inspection reports, to restore the online searchability of AWA and HPA records, and to ensure AWA inspections at USDA laboratories.

Congressional Animal Protection Caucus

A ▲ indicates that the representative is a member of this caucus, led by Reps. Earl Blumenauer, D-Ore., and Vern Buchanan, R-Fla., which highlights important issues affecting animals and opportunities for legislators to help advance sensible reforms. Caucus membership doesn't affect numerical scores.

STATUS: 158 members

Leader

A ✓ indicates that the member earned extra credit for leading as a prime sponsor of pro-animal legislation (including items not scored on this chart) or a letter to an agency. A ★ indicates that the member earned double extra credit for leading on multiple legislative or regulatory efforts or leading on a top priority issue.

Did your legislators make the grade?

Look inside to see how your U.S. representative and senators scored in the second session of the 116th Congress on issues such as horse racing and humane cosmetics.

Then let them know that you're watching and you appreciate their support for animals—or that you'd like to see them do more.

Also, please share the *Humane Scorecard* with family, friends, fellow advocates and local media outlets.
